

# SGK Soccer Game Keeper v2.1

An App for Apple Watch®

Score and Time Tracker

Now With A Watch-Face Timer

The SGK app is designed to provide you score keeping and time keeping on your wrist without having to look at your phone. The app is a standalone app for Apple Watch and does not have a companion app.

To get started, press the **S** button. It will bring up the settings screen.

To set your time for a period, you scroll up and down through the chooser using your finger or the digital crown. The numbers represent minutes and are in increments of 5 up to 45 minutes.

Once you have set your times, you may press the **Set** button to return to the main screen.

To RESET the app, click the **Reset** button.

To Cancel, press the **Cancel** button.

	<p>The selected times now show up in the bottom right button with a green background. In this instance, the button was set to read 20.</p> <p>To start a period, you simply tap the green 20 button.</p> <p>The timer will start to count down from that time as soon as you tap the button.</p> <p>To stop the timer, you would press the red stop button that will become visible when the timer starts (see below). You may then start the timer again by pressing the green start button.</p> <p>To reset the clock back to the starting time, simply press the 20 button again.</p>
	<p>The score keeping function has an “H” for the home team and an “A” for the away team.</p> <p>To adjust the score for each team, just press the + or - for each score.</p>
	<p>SGK now has a timer complication for a watch face. Create a Modular watch face and select SGK Soccer Game Keeper for the middle complication.</p> <p>To open the app, just tap on the SGK Timer.</p> <p>Once the time expires, you will receive an alert telling you it has completed.</p>
